Graduate IT Professional

Sydney, NSW | +61 404 095 887 | adamson.buliboli@gmail.com | [linkedin.com/in/adamsonb](https://www.linkedin.com/in/adamsonb) | adamsonb.com

PROFILE SUMMARY

IT support professional with nearly 10 years' experience in customer-facing technical support, primarily across hosting, telecom, and BPO service environments. Recently completed a Bachelor of IT (Kent Institute Australia) and currently progressing through CCNA certification (~60% complete), building toward broader networking and infrastructure skills. Known for fast, accurate troubleshooting and consistently high customer satisfaction (96%+) in high-volume, customer-facing support roles. Building hands-on infrastructure experience through personal projects, including a self-hosted home server and network labs, to bridge toward enterprise-level systems and network support.

EDUCATION

Kent Institute Australia | 2023 – 2026

Bachelor of Information Technology

Diploma of Information Technology (Cyber Security)

TECHNICAL SKILLS

Hardware & Software Troubleshooting • Windows & macOS Support • Networking Fundamentals (TCP/IP, LAN/WAN) • PC & Peripheral Setup • Ticketing Systems (Zendesk, Helpdesk Software) • Remote Desktop Support • Technical Customer Support • Account & Billing Support • Active Directory & User Account Support • Documentation & Reporting • Communication & Teamwork • Attention to Detail • Time Management

WORK EXPERIENCE

IT Customer Service Representative | group.one (formerly one.com) 2023

- Handled 50-60+ customer emails and tickets daily via Zendesk, resolving hosting, domain, and website builder issues efficiently while maintaining response quality — recognized with positive customer feedback on Trustpilot.
- Configured FTP/SFTP/SSH access for customers on shared hosting environments and guided customers through basic connectivity and configuration tasks.
- Troubleshot DNS propagation and domain configuration issues, guiding customers through record changes to restore website and email functionality.

Customer Care Associate | Continuum Global Solutions 2022 – 2023

- Diagnosed and resolved plan, device, billing, and account issues for customers via web-based chat, navigating multiple internal systems to identify root causes.
- Documented issue resolutions clearly and consistently, maintaining accurate records across a high volume of customer interactions.

Technical Support Advisor | TDCX 2021 – 2022

- Handled 3-5 concurrent live chats per shift, resolving technical issues in 10-15 minute average interactions while maintaining a consistent CSAT score of 96%+.
- Provided consumer-facing technical support on behalf of a major global technology brand, following strict data confidentiality and security protocols throughout every interaction.
- Adapted quickly to new product releases and system changes, keeping resolution accuracy consistent.

Technical Support Representative | Teletech 2019 – 2021

- Diagnosed and resolved technical issues via chat, using remote access tools to fix problems directly on customer systems.
- Provided consumer-facing support on behalf of a large US-based retail client, following strict data security and privacy standards across all service interactions.

Customer Service Representative | iPloy Inc. 2017 – 2019

- Managed high-volume customer interactions and data entry, handling patient data in compliance with HIPAA and healthcare data protection standards.
- Coordinated with external parties to secure documentation and manage appointment scheduling.

IT Support & Computer Technician (Self-Employed) | Philippines 2014 – 2023

- Delivered end-to-end IT support and troubleshooting for individual and business clients, diagnosing and resolving hardware, software, and operating system issues on-site.
- Installed, configured, and repaired desktop and laptop systems, including OS installation, software configuration, and peripheral setup.
- Configured and deployed point-to-point wireless network links for clients with limited ISP access, extending reliable internet connectivity and resolving connectivity issues in underserved areas.

- Maintained service records and communicated directly with clients throughout each job, ensuring clear explanations and full functionality after every repair.

CERTIFICATIONS

- CCNA — Cisco Certified Network Associate (In Progress)
- CompTIA ITF+, A+ (Completed) | Security+ (In Progress)
- Google IT Support Professional Certificate
- Zendesk Customer Service Professional Certificate
- Commonwealth Bank — Introduction to Cybersecurity Job Simulation

PERSONAL PROJECTS

- Self-hosted home server (Ubuntu/Apache) managing multiple live domains — including my portfolio, a real estate site, and my capstone project, a campus event discovery app (ceda.online) — accessed remotely via SSH over Tailscale, built to learn real-world deployment hands-on while cutting hosting costs.
- Built and maintain a personal finance web app (vibe-coded — designed by describing functionality and iterating with AI tools) with authentication and a secure Supabase database backend, created after existing apps lacked the features I needed and to avoid ongoing subscription costs.
- Set up a local LLM study environment (Ollama, Open WebUI) as a personal CCNA study assistant, prioritising privacy, offline access, and cost savings over cloud-based tools while learning the underlying tech.

ACHIEVEMENTS

- 2nd Runner-Up, Regional Hardware and Software Servicing Competition (2014)
- Champion, Document Formatting Competition (2015)
